**Ever been out bushwalking, climbing or skiing wearing a regular cotton t-shirt or bulky old jumper? Lets face it, we all have at some stage, enduring wet sweaty armpits and back. You just don't perform as well.**

**When cold and wet you don't enjoy your adventure in the same way if you had a nice breathable shirt that wicks the moisture away. Match this with a lightweight fleece, that will take up less space in your pack, and pants that are not only abrasion resistant and quick drying, but look smart when you are traveling with no iron handy!!**

**Here at The wilderness Shop we offer the best selection of thermals, pants that convert into shorts, base layers and fleeces to suit any activity. Our knowledgeable helpful staff are ready to fit you out for your next trip!**
