### Gemini 3

### Designed for the Australian Adventurer: YOU!

A careful balance between **light weight** and **durability**, **generous internal space**, **continuous pole sleeves** for increased stability, **quick set-up**, vestibule design ensures **no drips** into tent interior.

#### Internal dimensions:

2200mm long, 1600mm wide, 1150mm high

### Mira II:

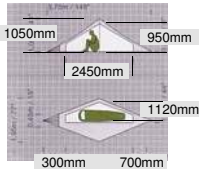

A lightweight, freestanding summer tent for two adults with ample head room and a generous floor plan. With plenty of space and excellent ventilation, the Mira II balances weatherproof fabrics with easy pitching and light weight design. Access is via two doors with sizeable vestibules. Protected door design helps keep rain out of the inner tent while entering or exiting in stormy weather. Colour coded poles and sleeves allow rapid set-up.

#### Internal dimensions:

2150mm long, 1250mm wide, 1180mm high

### Vela 1

#### All Vela I Models:

**Very light**, spacious, quick setup time (1.5 minutes!)

**Large vestibule** to store gear, all within easy grasp from within the tent.

**Dyneema core guylines** are superstrong, combined with ample tent peg loops for stability in high winds.

#### New Vela I Ultralight

**Even further weight reduction** on the Vela I Extreme

Use: 2-3 season

Fly Fabric: 15D Silicon/PU Nylon

Floor Fabric: PE Nylon 10000mm

Minimum Weight: 1.2 kg

Maximum Weight: 1.5 kg

Poles: DAC Featherlite 9mm aircraft aluminium

### Venus II

#### All Venus II Models:

**Quick & easy to pitch:** color coded poles glide into matched continuous sleeves.

**Guy lines attached directly to pole sleeves** for stability in wind.

**One inner door is larger** allowing 2 people to sit side by side.

**One vestibule has a loft** for wet gear.

**Great ventilation** with opposing doors and windows helps to minimise condensation in cold, humid conditions..

Efficient design allows an almost freestanding layout that despite a minimum of guy points, provides stability in stormy weather.

#### Internal dimensions

2200mm long, 1250mm wide, 1050mm high

#### New Venus II Ultralight:

**25% weight reduction** on the Venus II Extreme

Use: 3-4 season

Fly Fabric: 15D Silicon/PU Nylon

Floor Fabric: PE Nylon 10000mm

Minimum Weight: 2.1 kg

Maximum Weight: 2.4 kg

Poles: DAC Featherlite 10.25mm & 9mm aircraft aluminium.

Excellent air flow through opposed doors.

**Pitching**

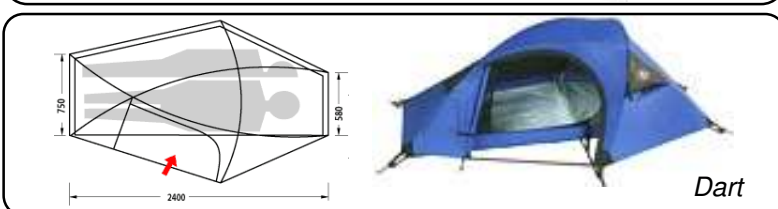

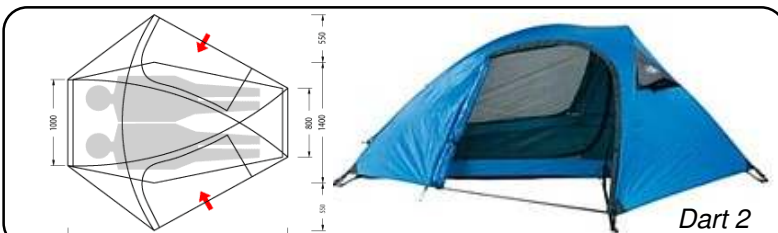

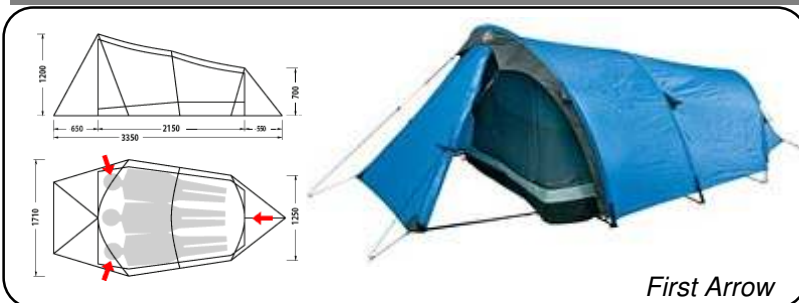

All Salewa tents pitch the inner first, which quickly clips to the poles. The outer fly is then put over the inner and clipped to the pole ends.

**Pitching**

WE tents, except for the *Dart Dart 2 & I-Explore*, are 'external pitch' design, meaning they can be put up or pulled down in the rain with only the outer getting wet. The outer can be used alone as a lightweight shelter. The inner tent is quickly clipped under the outer. Separate bags are provided for ease of packing and carrying. The *Dart & Dart 2* pitch inner first, and either the inner or outer can be used alone for a lightweight shelter.

**Something Better.**

"It is unwise to pay too much. But it's worse to pay too little. When you pay too much, you lose a little money, that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing you bought it to do." *John Ruskin 1819-1900*

**Epoch**

The *Epoch* is a true 4 season free standing alpine tent with a unique 6-pole design providing enormous stability in high winds. In fact wind tunnel testing showed that the addition of the ridgepole increased overall stability by an amazing 40%. The *Epoch* is a very generous 2 person dual entrance dual vestibule design and features large 3 way roof vents for increased comfort over all conditions. Constructed with durability in mind the PU Laminated floor is rated at over 10,000mm while the PU coated seam sealed fly is made from a highly tear resistant 40 denier Sil nylon. Other features include multi directional 3 point reflective guys, combination pole sleeve & clip system, Dac Poles, gear loft and 4 large internal pockets.

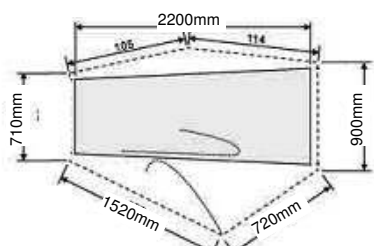

Dimensions: 220cm long, 145cm wide, 100cm high

**Firefly**

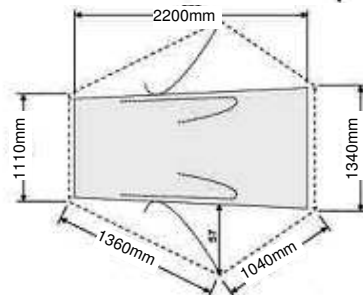

The *Mont Firefly* has been specifically designed as the best all-round tent for 3-4 season use in Australian conditions. The *Firefly* represents an unbeatable combination of maximising space while keeping weight at a comfortable limit for 2 people.
